2) *Reference 1* for drag and drop function

3) *Reference 2* for the play audio on cue function

4) *Reference 2* for the play audio by key press function

Visual Interactivity
- The guitar strings play the audio.
- Each string plays a respective guitar audio on hover over the string.
- Hitting assigned keys have respective drum/piano sounds.
- The piano sounds also give a visual effect (tint color over the guitar)

Possible Bugs to Be Crushed
- Sounds will not overlap or play at the same time
-
